Email: h.k409383429@gmail.com

Dedicated and versatile Software Developer with a proven track record in delivering high-quality software solutions. Proficient in a wide range of technologies, including ASP.NET Core, frontend development, Bootstrap, Tailwind CSS, JavaScript, TypeScript, Git, GitHub, and DevOps practices. With a keen eye for detail and a passion for innovation, I consistently contribute to the success of projects by designing, developing, and optimizing software applications that meet and exceed client expectations. Adept at collaborating with cross-functional teams and applying agile methodologies to deliver timely and scalable solutions. Committed to staying at the forefront of industry trends and technologies to drive continuous improvement and elevate software development standards

PROFESSIONAL EXPERIENCE

Gaza Training Collage

1/2/2023-1/5/2023

Team Leader & ASP.NET Core Developer

- **Project Description:**
Developed an Elderly Management System to streamline the care and support of elderly individuals. This system aimed to enhance their quality of life and improve the efficiency of caregivers and healthcare providers.
- **Responsibilities:**
 1. Project Planning and Management:
 - Led a team of developers and coordinated project activities.
 - Defined project scope, objectives, and milestones.
 - Created a detailed project plan, assigning tasks and deadlines.
 - Ensured adherence to project timelines and budgets.
 2. ASP.NET Core Development:
 - Utilized ASP.NET Core to build the core application infrastructure.
 - Implemented user authentication and authorization features.
 - Developed CRUD (Create, Read, Update, Delete) functionalities for managing elderly profiles and related data.
 3. Front-End Development:
 - Designed and developed the user interface using Bootstrap 5, enhancing user experience and accessibility.
 - Employed AOS.js for smooth animations and transitions.
 - Utilized JavaScript and jQuery for interactive elements and dynamic content.
 - Implemented DataTables jQuery for efficient data presentation and manipulation.
 - Integrated Chart.js to display graphical data representations for monitoring elderly health and statistics.

IMT Department at UNRWA HQG

1/7/2023-1/8/2023

Full Stack ASP.NET Developer

- Designed, developed, and deployed a comprehensive Employee Attendance System using ASP.NET Core, Chatapex js, Bootstrap5, and JavaScript/jQuery technologies.
- Developed an intuitive and responsive frontend interface, utilizing Bootstrap for a user-friendly experience
- Implemented real-time chat functionality using Chatapex to enable instant communication among employees, ensuring efficient coordination and problem-solving.
- Created a background service in ASP.NET Core to handle automated attendance tracking, ensuring accuracy and reducing manual data entry.
- Utilized JavaScript and jQuery to enhance the system's interactivity and usability, including date pickers and dynamic form elements.

Developers Plus

1/9/2023-1/12/2023

Full Stack Web Developer

As a Software Developer, I spearheaded the development of a cutting-edge Job Portal system and Chat Application utilizing a wide range of technologies and tools, including ASP.NET Core, Chata js, Bootstrap, JavaScript, jQuery, and SignalR for real-time communication in the Chat Application. My responsibilities and contributions included:

- **Job Portal System:**
 1. **Frontend Development:** Designed and implemented the user-friendly and responsive frontend interface using Bootstrap, JavaScript, and jQuery. This enhanced the user experience, making it easier for job seekers and employers to interact with the platform.
 2. **Backend Development:** Leveraged ASP.NET Core to build the robust backend of the Job Portal, ensuring efficient data handling, user authentication, and seamless integration with the frontend.
 3. **Real-time Notifications:** Implemented real-time notification features using SignalR, enabling job seekers and employers to receive instant updates about job applications, messages, and other important events.
- **Chat Application:**
 1. **Real-time Chat:** Utilized SignalR to create a real-time chat feature within the application, allowing users to engage in instant messaging, enhancing user engagement and collaboration.
 2. **User Authentication:** Implemented secure user authentication to ensure data privacy and user accountability, guaranteeing a safe and trusted chat environment.
 3. **Chartapex Integration:** Integrated Chartapex to enhance chat functionality, providing a seamless and feature-rich chatting experience for users
- By working on these projects, I honed my skills in full-stack development, real-time communication, and user interface design. I also gained valuable experience in collaborating with cross-functional teams, ensuring the successful completion of both projects within specified timelines.

EDUCATION

Abu Dhar Al-Ghafari School

2021-2022

Public Secondary

Excellent, GPA: 93.3%

Gaza Training Collage

202102023

Diploma

I was Studied Programming & Database , Graduated with a %85.6 Average

SKILLS

- **Technical Proficiency:**
 - **ASP.NET Core:** I excel in leveraging ASP.NET Core to create high-performance, scalable web applications that deliver exceptional user experiences.
 - **JavaScript and TypeScript:** My proficiency in JavaScript and TypeScript enables me to develop dynamic and interactive web applications, enhancing user engagement and functionality.
 - **jQuery:** I have a deep understanding of jQuery, using it to simplify complex client-side scripting and optimize user interfaces.
 - **AJAX (JavaScript):** My expertise extends to AJAX, facilitating seamless asynchronous communication between the client and server, resulting in responsive and dynamic web applications
 - **jQuery DataTables:** I skillfully utilize jQuery DataTables to efficiently manage and display large datasets, improving data presentation and user interaction.
 - **Bootstrap and Tailwind CSS:** My mastery of Bootstrap and Tailwind CSS ensures visually appealing and responsive user interfaces, delivering a consistent user experience across various devices
 - **Source Control (GitHub/Git/Azure DevOps):** I have a strong proficiency in source control using Git and GitHub, which are fundamental tools for version control and collaboration in software development. Git is a distributed version control system that I use to efficiently manage and track changes in code repositories. GitHub, on the other hand, is a web-based platform that I utilize for hosting, sharing, and collaborating on Git repositories.
 - **Database Management (SQL Server/SQL Profiler):** I possess extensive expertise in database management, with a focus on Microsoft SQL Server and SQL Profiler, essential tools for designing, implementing, and optimizing database systems.
- **Soft Skills:**
 - Problem Solving
 - Time Management
 - Communication

- Critical Thinking
- Teamwork and Collaboration
- Presentation Skills
- Creativity
